January Newsletter

Dear Parents,

Happy New Year 2024! We hope you had a great holiday season with your child/children and welcome you back!

In December, we organized a successful overnight camp for our K2 age group children. The event took place at Kizroo Kindergarten, where the children stayed overnight and participated in various activities. Before the K2 camp, the children had a gathering excursion with their peers from our West branch and had already made new friends. We hope this camp will be a memorable and enriching experience for their preschool days in Eis.

The Christmas celebration was filled with joy. Everyone enjoyed watching the special performances by the teachers, and the appearance of Santa Claus made them even more excited. They had been eagerly anticipating his arrival and the chance to receive their Christmas presents.

Santa Claus went into each class, and each class had prepared a surprise for him with a short performance. Santa was delighted to watch their performance, and afterwards, he gave the children presents. They were thrilled to take a photo with Santa Claus as well!

We have entered the academic year's final term (Term 4). There are a few events and celebrations for children to enjoy with their teachers and friends. Teachers will continue to create wonderful memories with our children.

## Temperature Check

Thank you for taking the time to check your child's temperature before coming to school and recording it in the communication book. Starting January 2024, you will only need to do this when there is an outbreak of any disease. However, you may continue to check your child's temperature before coming to school if you wish. Please note that there is only a need to record it in the communication book if the school informs.

## Class Observation - January 22 to 26

You will soon receive the class newsletter for the observation day. Please refer to the yearly calendar for the date and ensure that you keep yourself available.

## Mochitsuki Celebration

Mochitsuki is an important traditional event that prepares us for the New Year. It's also our annual way of celebrating Eis's founding day.

### Mochitsuki Date

East - 18 January 2024

West - 19 January 2024

The children will have fun pounding the mochi in school. They will also bring home two mochi made by the teachers using a mochi machine. Please enjoy the mochi at home safely.
